CONFERENCE TO READJUST DUTIES

President Taft Invites Canadian
Officials to Meeting.

TARIFF NEGOTIATIONS ENDED

And Now the Chief Executive of the
United States Is Anxious That Closer
Trade Relations Be Established With
the Dominion—Will Not Say Matter
Is a Forerunner of Reciprocity.

Washington, March 31.—Following
the proclamation of a complete tariff
agreement with Canada it was an-
nounced that President Taft has in-
vited Dominion government officials
to a conference looking to closer trade
relations between the two countries
and to a general readjustment of du-
ties.

The president's invitation to Can-
ada is included in an exchange of
notes between Secretary of State
Knox and the Dominion government.
The note expresses satisfaction at the
termination of the tariff negotiations
and advances the hope that the way
has been opened for an early settle-
ment of all the differences between
the two governments, including the
troublesome question of the water
boundary line. The note then ex-
presses the belief that the time is ripe
for a conference looking to the better-
ment of trade relations between the
two countries.

In discussing the matter President
Taft would not go so far as to say
that the proposed conference is the
forerunner of reciprocity. What he
hopes is that the conference may re-
sult in a complete readjustment of
the tariff rates between the two coun-
tries, without either abandoning its
national economic policy.

The unofficial story of the negotia-
tions with Canada looking to the set-
tlement announced, by which Canada
is declared entitled to the minimum
rates of the Payne-Aldrich law, is per-
haps more interesting than the spec-
ific announcement as to just what
articles are included in the conces-
sions granted on either side.

Anxious to Avoid Tariff War.

President Taft from the first did not
hesitate to let it be known that he
would go a long way to avoid a tariff
war with Canada. It was the presi-
dent who took the initiative in invit-
ing Finance Minister Fielding to Al-
bany to discuss the differences be-
tween the two countries. The ex-
change of views at Albany was such
as to indicate that peace was assured.

The charge that Canada was unduly
discriminatory against the United
States originally grew out of the Cana-
dian treaty with France, whereby the
latter country was given a reduction
of from 2½ to 5 per cent. President
Taft did not take the view that this
was discriminatory, inasmuch as
France in return offered to Canada a
similar reduction of rates. The United
States, never having offered conces-
sions to Canada, Mr. Taft held, could
not expect such preferential treatment
on the other side.

There stood in the way, however,
the fact that the reductions granted
by Canada to France were automati-
cally applied to thirteen other coun-
tries included in Great Britain's "fa-
vored nation" policy. "This, the presi-
dent held, did amount to discrimina-
tion against the United States. It was
to offset this that the negotiations
were begun and the president ex-
pressed himself as satisfied with the
outcome.

President Taft made the proposition
that Canada would be absolved from
"undue" discrimination against the
United States if this country were
given a 2½ per cent reduction on the
articles with which American firms
compete with the "favored nations"
in the Canadian market. The Domini-
on government finally agreed to this
and it was on these terms that the
settlement was reached.

POLICE DISCREDIT STORY

Do Not Believe Volunteer Officer Was
Kidnapped.

St. Paul, March 31.—His spirit
weakened and with tears in his eyes,
Captain Timothy Murphy of the Volun-
teers of America, who March 21
disappeared with \$1,250 of the recent
tag day receipts, and who Tuesday
night was found on the doorstep of his
home and later told of having been
kidnapped, tortured and robbed, ap-
peared in police court to face the seri-
ous charge of embezzling funds en-
trusted to his care. He waived ex-
amination and was remanded to jail
in lieu of \$5,000 bail.

The police discredit Murphy's story
of being kidnapped and robbed.

Rain Saves Business Section.

Milbank S. D., March 31.—The ele-
vator owned by the Reliance Elevator
company, Minneapolis, was totally de-
stroyed by fire. It contained about
5,000 bushels of grain. The estimated
loss is \$10,000. Rain probably saved
half of the business portion of the city.

FOR NORTHWESTERN STATES

Congress May Authorize Importation
of Manchurian Hogs.

Washington, March 31.—Serious talk
is heard in congress about importing
elands, hippopotami and all those other
strange animals about which the
American public has been reading in
Roosevelt's African story.

The members of congress propose
that Secretary Wilson shall have
charge of importing a fine herd of
hippopotami, elands, zebra, camels,
yaks, Manchurian hogs, and other
beasts. These are all to be kept in
parts of the United States where they
will do the most good. Most of them
are to be set at large, and allowed to
multiply.

The bill designed to give effect to
this idea is put forward by a Demo-
crat, Robert F. Broussard of Louisiana.
The scientists have their eyes upon
the Manchurian hog for Michigan and
Minnesota and Wisconsin. This animal
isn't particular about its diet; it will
eat tin cans like a goat.

IN TRYING TO SAVE BROTHER

Minnesota Youth Drowned in Rapid
River.

Spooner, Minn., March 31.—Emman-
uel Hanson, seventeen years old, the
eldest son of Mrs. Betsy Hanson, was
drowned in the west branch of the
Rapid river while trying to save the
life of his little brother and another
little fellow.

Both young boys were playing on
the banks of the river and fell in the
water.

The oldest brother plunged into the
river, and in trying to save them, got
under the ice and was lost from sight.

The two little fellows were rescued
by Ole Hanson.

FOR SUPREME COURT BENCH

Stevens to Submit the Name of Judge
Sanborn.

Washington, March 31.—Acting on
behalf of the Minnesota delegation,
Representative Stevens of St. Paul on
Monday will formally submit to Presi-
dent Taft the name of Judge Walter
H. Sanborn as an available for nomi-
nation to the place on the supreme
bench made vacant by the death of
Associate Judge Brewer. The impres-
sion prevails here that Lloyd B. Bow-
ers will be elevated to the bench.

Fire in Iowa Theater.

Manchester, Ia., March 31.—Elec-
trified films of the Idle Hour Pic-
ture show took fire and the flames
spread to other parts of the theater in
which there were a hundred persons.
Nobody was seriously injured. Jack
Brown, sleeping in the second story,
narrowly escaped death. The theater's
equipment was a total loss.

Wreck Investigation Finished.

Marshalltown, Ia., March 31.—After
spending two days, the investigation
of the state railroad commission into
the Rock Island wreck, March 21, was
finished. The report of the commis-
sion will not be made probably for
several weeks, and, if developments
warrant, additional testimony will be
taken.

THE FOREST PEOPLE.

A Curious Scotch Settlement in the
Heart of France.

Attention has been called in France
to a little British settlement which
still exists in the very heart of the
country not far from Bourges, in the
province of Berry. Its inhabitants
have received the name Forestians, or
forest people. Their history is a curi-
ous one.

In recognition of the services which
John Stuart, constable of Scotland,
rendered to the French nation one of
its kings, Charles VII., 500 years ago
granted him a park in the forest of
Hautebrume and subsequently gave the
Scotchmen whom he settled there the
right also of feeding pigs and cutting
wood in the adjacent royal forest of
Allogny. They also were exempted
from the payment of general taxes,
salt tax or the dues levied by the
neighboring town of Bourges, and
finally a royal magistrate was appointed
for their special benefit.

This magistrate used to sit booted
and spurred, with his sword by his
side, and for many years his decisions
were given without appeal not only in
all civil but in criminal cases as well
which affected the proprietors or hum-
bler inhabitants of the forest.

The Scotchmen cleared the forest of
its old trees and planted instead or-
chards and then invited others of their
countrymen to come and join them.
Since then they have preserved some-
thing of their Scotch origin as well
as their lofty, stalwart, active and vigor-
ous form. They cultivate both beards
and whiskers and both in accent and
peculiarities of speech show their de-
cent.

In dress they only differ from the
inhabitants about them by wearing
long leggings with spurs attached.
Many of the names are Scotch or Eng-
lish, such as Talbot, Cromwell, Halli-
day and Godwin.—Brooklyn Eagle.

THOMAS L. LEWIS.

Leader of Miners Predicts
Victory for the Men.

MAY RAISE FREIGHT RATES

Railroads West of Chicago Planning
Such Move.

Chicago, March 31.—An advance on
many of the commodity carload
freight rates between Chicago and the
Missouri river and St. Paul is con-
templated by the Western railroads
as the next move in a general cam-
paign for increasing their revenues to
offset the advances in wages to em-
ployees and the increased cost of op-
eration in all departments. Rate
clerks of the Western Trunk Line as-
sociation have been checking over the
tariffs for several weeks for the pur-
pose of demonstrating which rates
may be deemed most susceptible of
advancement.

They have compared the commodity
rates with class rates on similar ar-
ticles and their figures will be consid-
ered by the traffic officials at a meet-
ing to be held within a few days.

SUIT AGAINST THE STEAMSHIP POOL

Will Be Brought by Its Federal
Government.

Washington, March 31.—Suit in
equity under the Sherman anti-trust
law is to be instituted by the depart-
ment of justice against what is known
as the European steamship pool on
the contention that it is an arrange-
ment to restrain of trade.

The fact that the vessels owned by
the steamship companies forming the
pool, or a number of them, touch at
American ports is the basis for the
proceedings, as the anti-trust law
gives the government jurisdiction to
punish violations of law affecting both
interstate and foreign commerce.
All the steamship companies involved
in the proposed proceedings are for-
eign organizations.

The matter has been under investi-
gation by the federal grand jury in
New York for a long time and it is
expected the suit will be instituted in
that city, the American headquarters
of most of the steamship lines in-
volved in the pool.

The investigation, it is said, de-
veloped that the pooling arrangement
embraced the transportation of both
passengers and freight. On the Ameri-
can side of the Atlantic it was charged
that the agreement had its ramifica-
tions in the shape of rebating by
railroad companies.

The investigation is said to have de-
veloped a case embracing the whole
service of the immigration traffic from
every country in Europe. The opera-
tions of the pool also, it was charged,
seriously interfered with the work of
American steamers lying at American
ports awaiting cargoes, the foreigners
underbidding them and getting the
traffic.

While the government cannot bring
suit to dissolve a foreign corporation,
it may institute proceedings affecting
its operations as practiced on Ameri-
can territory, and if found guilty of
violating the provisions of the Sher-
man law can secure an injunction to
stop such illegal acts.

Young Man Commits Suicide.

Reedsburg, Wis., March 31.—Self-
inflicted death ended the life of Oliver
Smith, a youth of twenty-five years,
who drove a dray wagon route be-
tween La Valle and Lime Ridge. Last
week a package containing \$1,000 was
entrusted to his care, but when deliv-
ered in La Valle only blank paper was
found where the money had been. He
shot himself with a shotgun.

Wisconsin Farmer Killed.

La Crosse, Wis., March 31.—Chris-
tianson, a wealthy farmer living
two miles from Viroqua, was instantly
killed when thrown from a load of to-
bacco in a runaway. His two little
daughters, driving with him, saw their
father killed, but were uninjured.

MINERS WILL GET INCREASE

According to the Prediction of
President Lewis.

WILL NOT LAST VERY LONG

Head of the Mine Workers' Organi-
zation Does Not Think Suspension of
Work Will Be of Great Duration
and No One Will Suffer Loss—Op-
erators Fear That Strike of Iowa
Men Will Last for Months.

Indianapolis, March 31.—"The mem-
bers of the national executive board
will have their instructions as to the
direction of whatever strikes in the
bituminous coal districts may be nec-
essary when they leave Indianapolis,"
Thomas L. Lewis, president of the
United Mine Workers, said. "I shall
go first into the Illinois field."

The executive board will be occu-
pied in transacting business that has
accumulated since the wage negotia-
tions between the miners and the op-
erators began several months ago.

"At midnight there will be a sus-
pension of work in some districts,"
Mr. Lewis said, "but it will last only
a few days and no one will suffer loss.
The miners will get their uniform ad-
vance in wages of 5 cents a ton all
over America and there will be no bad
strike. This matter should all have
been cleared up in our joint confer-
ence at Cincinnati. Factional trou-
bles among the operators, as well as
the miners, prevented, but we shall
come out all right in a short time."

TO ADJUST THE WAGE SCALE

Coal Operators and Miners' Officials
to Meet.

Philadelphia, March 31.—Members
of the Central Pennsylvania Bitumi-
nous Coal Operators' association left
here for Dubois, Pa., where they will
meet officials of the United Mine
Workers of America and endeavor to
adjust the wage scale for the coming
year. The operators of Central Penn-
sylvania, which comprises District No.
2 of the miners' union, for some time
have been attempting to have the
union equalize wages of all miners in
that territory. The operators claim
they cannot compete with the non-
union mines if the union insists upon
a wage increase.

The increase of 5.55 cents an-
nounced by the Berwind-White Coal
Mining company, which employs non-
union miners, created much interest
among the operators employing union
labor.

The Westmoreland Coal company,
Penn Gas company, United Coal com-
pany, Ocean Coal company and the
Steele Coal company, all operating
in the Irwin field, granted a wage in-
crease of 5½ per cent on pit mining
and on other work at the same pro-
portion. This will go into effect
April 1. The advance affects 5,000 men.

STRIKE OF MINERS IN IOWA

Coal Operators Fear It May Last for
Months.

Des Moines, March 31.—Fears are
expressed by coal operators that the
strike of Iowa miners may last for
months on account of the large in-
crease in wages demanded by the
miners.

It was learned that Iowa miners
would insist on an increase of 10 cents
per ton on screen picked coal, with a
corresponding increase for other vari-
eties. Operators declare they will
never consent to such an increase;
that they will close their mines in-
definitely if they are not agreed to a 5-cent
increase, such as is demanded in the
Central district.

The work of the two conventions,
the operators and the miners, is in the
air, pending the arrival of John P.
White, president of the Iowa district.
It is believed that Mr. White will
solve the situation and arrange to
keep the miners in order pending the
settlement. It also is believed that
he will urge the miners to decrease
their wage demands to 5 cents.

PERISH IN PRAIRIE FIRE

Four Persons Burned to Death in Ne-
braska.

North Platte, Neb., March 31.—It is
reported four persons were burned to
death in a prairie fire in McPherson
county. C. T. Cline, county treasurer,
is one of those said to have lost his
life. The other three fatalities are
schoolchildren.

No details have been received. Mc-
Pherson county is without railroads or
telegraph communication. The same
fire which devastated McPherson
county swept a part of this (Lincoln)
county, destroying much property.

Immigration Blocks Trains.

Regina, Sask., March 31.—The num-
ber of American settlers from West-
ern states is so large through this sec-
tion that regular train service is
blocked on all lines. Dozens of
special trains are daily increasing the
crowds.

EMPEROR WILLIAM.

Will Ignore Precedent in
Entertaining Roosevelt.

MISSOURI RIVER CONGRESS

Attended by Many Men Interested in
River Work.

Pierre, S. D., March 31.—Delayed
trains brought many men interested
in river work to the Missouri River
congress. Among the late arrivals
was Captain Isaac P. Baker of Bis-
marck, who operates on the Missouri
in North Dakota. He will talk on
present day river traffic.

Will A. Campbell of Omaha com-
pared Soo canal rates with Dakota
freight rates, and placed the cost of
carriage of freight by water at one-
twentieth of the Dakota rail cost.

Governor Vessey spoke of the move-
ment as a part of the great national
movement for inland waterways
which would in the near future de-
velop from a theory to a reality.

SIXTEEN MORE ARE INDICTED

Grand Jury Continues the Work
at Pittsburg.

Pittsburg, March 31.—Dr. E. E. Wal-
ters, former president of the select
council, who is now director of public
health and charities, has been indicted
as the alleged recipient of \$1,000
in bribe money.

Fifteen other former selectmen were
named in the grand jury's latest re-
port as having received amounts from
\$500 to \$250.

The indictments make a total of
ninety-one in three reports by the
grand jury within two weeks and
there are more to come, District At-
torney William A. Blakeley says. To
this end the inquisitorial body had
before it more officials, directors and
employees of the six banks alleged to
have paid money to obtain an ordi-
nance naming them as city deposi-
taries. There were also four local ex-
press agents before the grand jury,
which is seeking now to trace the
\$45,000 which was sent or taken to
New York to be passed over there to
former Councilman Charles Stewart.

The progress of the grand jury in
its probe for the "men higher up" is
still undisclosed, but it is said that
progress is being made and that the
naming of bigger men is certain to
come soon.

The indictment of sixteen former
selectmen was based upon the confes-
sions of Stewart that he had distrib-
uted to these sixteen men \$12,000 to
buy their votes in favor of the bank
ordinance.

SITUATION IS PUZZLING

City Election May Not Be Held at
Faribault, Minn.

Faribault, Minn., March 31.—The an-
nual city election will be held on April
5, provided an election is held at all.
There is no one who seems to know
where, what or how the situation is.

The calls for the city conventions,
both Democratic and Republican, were
illegal. After this was discovered, the
various candidates provided them-
selves with petitions, but these have
also been declared illegal, at least a
letter from the state attorney general
on this point says so.

The only petition filed in accordance
with the law is that of George L.
Smith, the present mayor, who seeks
re-election.

Severe Storm in South Dakota.

Aberdeen, S. D., March 31.—Mc-
Pherson county and the north middle
part of the state were swept by a high
wind, rain and hail storm, which was
chanced to snow in some parts, ter-
minating a month of ideal spring
weather.

Protest Against Lee Statue.

Washington, March 31.—Protests by
forty G. A. R. posts against the accep-
tance by congress of the statue of
Robert E. Lee for a place in Statuary
hall were presented to the senate by
Senator Lodge of Massachusetts.

ENTERTAINMENT OF ROOSEVELT

MOUNT ETNA'S ACTIVITIES.

Last Important Eruption of the Vol-
cano Was In 1907.

Mount Etna, the famous volcano
which recently broke out again in a
violent state of eruption, is the grand-
est of European volcanoes and has a
well earned reputation for destructive
outbursts. More than a hundred erup-
tions of more or less violence are re-
corded in its history. It has been built
up by ages of intense activity on a
colossal scale, covering a larger area
than Vesuvius and at times exceeding
the latter in the volume of its lava
discharges.

In the long eruption of 1852 and 1853
Mount Etna ejected a torrent of lava
six miles long and from one to two
miles broad. On July 27, 1892, im-
mense masses of rock were projected
out of the volcano to a great height,
and dense clouds overhung the moun-
tain, while the subterranean rum-
blings were intense, and the distur-
bance continued to the second week
of August, with a steady increase in
the flow of lava.

Mount Etna's last important erup-
tion was in May, 1907, and was cou-
pled with an eruption of Stromboli.
New craters opened in both mountains,
and the observatories of Messina and
Catania registered earthquakes. Smoke
and flames issuing from the main
crater of Mount Etna were visible for
a long distance, and there was great
alarm among the people inhabiting the
villages in the luxuriant zone around
the mountain.

Mr. Frank A. Perret, assistant di-
rector of the royal observatory on
Mount Vesuvius, visited Mount Etna
on this occasion and witnessed the
eruption, which he had predicted for
the end of April. There were contin-
ued loud explosions and earth shocks,
which were especially severe at the
Etna observatory. This building is
situated at an elevation of 9,000 feet
and is only 1,700 feet from the crater.

Mount Etna is situated close to the
east coast of Sicily. It is an almost
circular flattened cone and rises to an
altitude of 10,750 feet. The mountain
is dotted over with large secondary
cones. Its lower slopes are exception-
ally fertile, well cultivated and densely
inhabited, but above 7,000 feet all
is black and barren. Eruptions take
place on an average after intervals of
four or five years. The most destruc-
tive outbreaks were those of 1169,
1639, 1693, 1792, 1879, 1886 and 1892.

Coast to Coast Flight in an Airship.

A trip in a type of air craft as luxu-
rious and comfortable as an ocean
liner and as safe as a Pullman sleeper
is the jaunt promised for the near fu-
ture by Professor T. S. C. Lowe. Work
on the first airship of its kind has been
begun at the factory in Pasadena, Cal.,
and as soon as it is finished the ex-
perts in army, navy and signal service
corps will subject it to a series of
tests. "It is a practical thing," said
Professor Lowe recently. "The stage
of experiment is past. The first air-
ship will be a passenger car accom-
modating twenty persons. There will
be upholstered chairs in a comfortable
cabin and seats in an open outlook.
The second airship will be designed to
carry freight for transcontinental
traffic. This ship will sail across the
American continent and will land at
the principal cities on the route be-
tween Los Angeles and New York."

GRAIN AND PROVISION PRICES

Minneapolis Wheat.

Minneapolis, March 30.—Wheat—
May, \$1.14@1.14½; July, \$1.14½;

rough, \$10.65@10.75; good to choice
heavy, \$10.75@10.95; pigs, \$9.70@10.60.
Sheep—Native, \$5.50@9.10; yearlings,
\$8.25@9.40; lambs, \$8.60@10.25.

Emperor William Will Ignore
Court Precedent.

CHAMBERLAINS ARE DISMAYED

Horried at the Idea of an American
Citizen Being Given Precedence at
Dinners and Elsewhere Over Even
the Royal Princes—University of
Berlin Will Honor the Distinguished
Traveler.

Berlin, March 31.—Emperor William
has invited former President Roose-
velt to be his guest at the palace for
three of the five days that the colonel
will spend in Berlin. Colonel Roose-
velt will arrive here on the evening of
May 9, and will be entertained by Da-
vid Jayne Hill, the American ambas-
sador, until May 12, when the em-
peror will return to the capital from
the provinces. Then Colonel Roose-
velt will go to the palace.

The emperor will throw court prece-
dence to the winds during Colonel
Roosevelt's stay. The masters of cer-
emonies and court chamberlains are
dismayed by the emperor's determina-
tion to give a private and non-official
person precedence at the dinners and
elsewhere over everybody, even the
royal princes. The expectation is that
the emperor, who has given much
thought to the entertainment of his
distinguished American guest, is pre-
paring surprises for the three days in
which he will give up to the former
president most of his time.

SOUTH BAY LAKE

Well we have had a light fall of rain at last which has freshened the atmosphere and made the grass sprout out, and also gladdened the frogs.

Arthur Maghan was calling on John Peterson Tuesday evening.

Fred Wulf was a caller at M. L. Hammett's last Tuesday.

John Peterson was helping Clyde Hewitt sharpen fence posts Tuesday.

Fred Wulf and John Peterson finished laying their corduroy and then they dug a long ditch to drain off the surface water. They will soon be ready to make use of the road grader.

Sam Blades made Freddie Wulf a visit Monday evening after school. After they had eaten their supper they went fishing.

Mr. and Mrs. John Peterson and little Irma, made Mr. and Mrs. Seipp and children a visit last Sunday afternoon.

Carl Wilson was calling on John Peterson last Tuesday afternoon.

Mr. Chris Wilson has been very sick for the past week or so, but at present he feels a little better. Mr. Wilson is past 80 years of age and his age is telling on him.

John Waffensmith was calling on Fred Wulf last Sunday forenoon.

The South Bay Lake notes lay in the mail box for three days last week and that is why they were not in print.

Alvin Elmore went down to his grandpa's for a visit last Saturday, returning home Sunday.

Mrs. M. L. Hammett and son Oscar were calling on Mr. and Mrs. John Peterson last Sunday forenoon.

Maggie Maghan is up at North Bay Lake helping her aunt, Mrs. Arvilla Miller. It is a busy time now at North Bay getting ready for the arrival of the summer boarders. Some of them have already arrived.

Mrs. M. H. Clark and children contemplate going to their old home in Oklahoma to live. The neighbors will all hate to have them leave and hope they will conclude to remain here.

Hazel Maghan spent a few days at home including Good Friday and Easter Sunday. She returned to her school Sunday afternoon.

At Walker's hall, Thursday evening, March 31, at 8 p. m. Admission free. Everybody welcome. 2t

Saved a Soldier's Life

Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Texas, than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery which completely cured me. I now weigh 178 pounds." For coughs, colds, laryngitis, asthma, hemorrhage, hoarseness, croup, whooping cough, and lung trouble, its supreme. 50c, \$1.00. Trial bottle free. Guaranteed by all druggists. 2ts

Boil all drinking water to avoid danger of typhoid fever. Dr. R. A. Beise, Health Officer. 211-tf.

RUGS

We have just received our spring stock of rugs (all sizes) lace curtains, portiers, couch covers, bed spreads, go-carts, bench and tub wringers. We sell on easy terms. 249tf

W. S. ORNE.

Bids for the Erection of Frame Addition to Pumping Station and Constructing Concrete Foundation For Pump

Sealed bids will be received at the office of the secretary of the water and light board, up to and including April 5th, 1910, at which time the bids will be opened, for the erection of a frame addition to the pump house, and constructing concrete foundation for pump, according to plans on file in the office of the secretary.

The board reserves the right to reject any and all bids.
Dated, Brainerd, Minn., March 30, 1910.

WM. NELSON,

Secretary Water and Light Board
Bids to be addressed to the secretary Water and Light Board, Brainerd, Minn., and marked "Sealed Bids for building Addition to Pump House and laying concrete foundation for pump." 2t

A Noiseless Convention.

A convention with all talking eliminated will be held in Colorado Springs in August, 1910, when the world's congress of the deaf will assemble in that city. In the meeting not a word will be spoken. The deliberations will be in the sign language, and moving pictures will be taken for exhibition throughout the world. Steps will be taken to celebrate properly the centenary of American deaf mute education in 1817 by Thomas Hopkins Gallaudet, and Dr. Edward Miner Gallaudet, president of Gallaudet college, Washington, the only surviving son of the founder of deaf mute education, will be the honored guest of the congress. President Taft will also be invited to attend.

Success in clothes retailing now-a-days means that the clothier meets the exacting requirements of two classes of men. That we are successful is due to our recognition of this fact. In good clothes

there must be age fitness as well as good fit. There must be the difference in age-style, with a perfect uniformity of quality—workmanship. This difference is happily expressed in

Sincerity Clothes

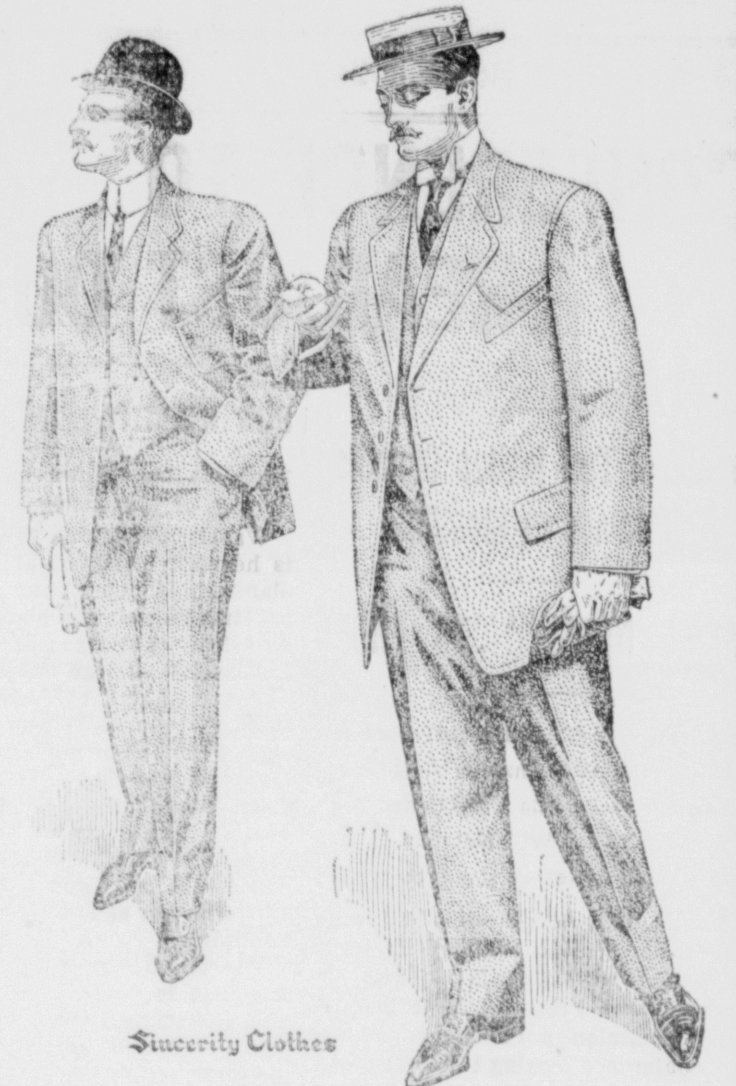

We have the distinctively cut models for young men, characterized by an absence of faddishness; but full of the good tailoring that is essential to their lastingness.

For old men there are styles less daring, but having the perfect line of the finest custom work and tailoring that cannot be equaled at the price, \$15, \$18, \$20 to \$27.50.

We are here to show you how good clothes fit and look, and the clothes themselves will show how they wear and hold their shape.

MUSIC AND DRAMA

"The Girl of the Golden West"

David Belasco's own company in his successful play "The Girl of the Golden West" will be presented for the first time in this city in the new future. One of the beauties of a Belasco production is the skillful way in which the production, where the time represented is anything but the present, the atmosphere, such as it is, remains always on the stage, the audience realizing throughout that it is watching a play. Mr. Belasco's efforts have been directed to taking the audience along with the players into the atmosphere presented upon the stage and by various means he has succeeded in doing this so that those watching a Belasco presentation forget that it is only as spectators on the other side of the footlights, and actually live with the characters of the play. Mr. Belasco has used a device for transporting his audiences to the scene of the play that is at once extremely simple and admirably clever. When the first curtain rises the audience gaze upon the mountain path that traverses Cloudy Mountain and leads at least to the village. The mountain recedes as if the spectators were descending the path, and eventually finds himself at the Polka saloon, listening to the music and shouts from within and watching the snow leaping against the windows. Then the panorama curtain is lifted and the visitor finds himself inside the saloon, side by side with the people of the play. From that time until the final curtain the auditor travels, not at a distance, watching the developments through a telescope, but in company with the characters, feeling the interest of one who was part of the settlement of Cloudy Mountain, and vitally concerned in everything that takes place.

Stubborn Mules
are liver and bowels sometimes; seem to balk without cause. Then there's trouble—loss of appetite—indigestion, nervousness, despondency, headache. But such troubles fly before Dr. King's New Life Pills, the world's best Stomach and Liver remedy. So easy. 25c at all druggists. 2ts

"The Old Reliable"

KEENE & McFADDEN

First National Bank Block

Brainerd, Minnesota

Again we find it necessary to revise our list, as pretty much of everything, especially on the "north side," has been sold, except "OUR HAPPY HOME." This we propose to keep, and expect to live and die in BRAINERD. In 1881 we cast our lot here in BRAINERD and CROW WING COUNTY, and the prospects never looked brighter than it does at this time, and we still maintain that a DEED TO A HOME IN BRAINERD is worth more than a bushel of RENT RECEIPTS. If you want to buy city property, farm or mineral lands, see us, as we have a large list and many choice bargains. If you want to sell city property or lands, list with us. Our motto is "GIVE EVERY MAN A SQUARE DEAL."

HOUSES AND LOTS

The "Nevers Home", corner Main and 4th streets, 14 rooms, two baths and toilets, steam heated. Ideal place for roomers. Will sell for \$3000 on easy terms or rent to agree party for \$25 per month.
Snug cottage at 705 S. 5th street, for \$750, easy terms.
House and two lots corner 1301 Pine St. S. E., for \$800—Easy payments.
Small cottage at 919 Grove St. Price \$600—Easy terms.
Six room house and two lots at 1006 Fir Street—\$600—Half Cash.
A frame house and 50 foot lot at 1610 Norwood street, \$750—Terms.

Other Houses Not Listed Above in All Parts of the City

VACANT LOTS

Three fine lots on south Sixth street, \$125 each—Terms.
Four fine lots on N. 3d St., south of C. M. Patek home. Price for the 4, \$1000.—Cash.

We still have about 60 lots left in N. E. Brainerd, size 50x140 feet, with alley through every block. Will close them out at \$40 to \$60 each. \$10 down then \$5 monthly.

Four lots corner Kingwood and 2nd streets. Price \$1050—Part cash, balance on easy terms.

One lot 37½ feet by 100 feet, No. 712 N. 9th street. Price \$300.

Other Vacant Lots in All Parts of the City Not Named Above

MINERAL LANDS

A quarter section in 31-134-28. Knudsen's map of Cuyuna range shows an attraction right through it. Price for a quick sale, \$25 per acre, terms.

80 Acres in Sec. 32-134-28, also on line of attraction. Price \$30 per acre on terms.

8½ of sw¼ of Sec. 11-44-31. Drilling and proving up on ore all around this 80. Price \$30 per acre. Cash or terms. This is worth investigating.

160 acres along the line of attraction in Sec. 36-44-32. Price \$50 per acre.—Terms.

80 Acres the n¼ of ne¼ sec. 21-43-31. Price \$25 per acre—Terms.

160 Acres in Sections 35 and 36-45-30. Price \$30 per acre. Worth looking after. Also other Mineral Lands Not Above Enumerated.

FARM LANDS

We have a number of first class FARMS, improved and unimproved in all parts of the county. Prices ranging from \$8 per acre and upwards; price all depends on the location and improvements.

Remember a Perfect Title or No Sale With us

WHITE BROS.

House cleaning time has come again and we have the implements and material to make the home bright and beautiful both inside and outside. We have carried T. L. Blood's house paints for 27 years and always with satisfaction to ourselves and customers. Berry Bros. liquid granite for floors needs comment in this city. ENTERTAINMENT

WAS A FINE ONE

Entertainment Given in Behalf of Health Fund Proved Very Successful

MISS O'CONNELL WAS VERY FINE

Brainerd Vocalists Add Materially to the Pleasure of the Audience as Usual

An entertainment of considerable merit was given at the Citizens State bank hall last night and thoroughly enjoyed by the patrons of the "Public Health Movement" of the city. The committees are to be congratulated in furnishing a high class entertainment for the pleasure of the public and thus starting the fund which will enable the officers in charge to begin the work they have planned.

Aside from the dramatic reader, Miss Alice Ruth O'Connell, numbers were furnished by our talented city musicians. Miss Mysen was well received in the opening selection, Gondoliera in G minor, by Moszkowski. Mr. Alderman, with Miss Alderman, sympathetic accompanist, sang with the confident power of a rich voice, "She Alone Charmeth my Sadness," Gounod. In the duet, "Calm as the Night," Gotze, by Mrs. G. D. LeBar and Mr. Alderman, the two voices were perfectly blended in tune with the spirit of this pleasing song. Mrs. LaBar's songs, "A June Morning," Willby; "A Rose and a Kiss," and "You," from Souci, were quite satisfying in the daintiness and the charm of her interpretation.

To the unprofessional critic, Miss O'Connell seems to possess a finely developed natural dramatic talent. Her power was tested to its fullest in the reading, "The Lane that has no Turning," by Sir Gilbert Parker, in which piece a wife's pure love and unswerving devotion stands the test unto death. One was carried unconsciously into the deep emotion of the woman who spent herself to preserve the happiness and peace of mind of a deformed and sensitive husband. "A Set of Turquoise," by Aldrich, was quite as dramatic but perhaps less pleasing because the sentiments of coquetry and of jealousy which are the spirit of the play, are of not so wholesome a character. Nevertheless, the rendering was vivid and full of grace.

The audience was enthusiastic in its enjoyment of the lighter renderings, "Don't You," "Bill Smith," while the encore number, introducing the wailing urchin, reached perfection. Perhaps "Peek-a-boo," by William

Kirk, a tender bit of broken English, was rendered with sweeter sympathy than any other.

On the whole Miss O'Connell quite fulfilled the expectations of the enthusiastic friends she had made here at two previous appearances before the Musical Club.

DEATH OF MRS. SHODAL

Popular Young Brainerd Matron Passed Away Wednesday After Two Weeks Illness

Mrs. Caleb Shodal died Wednesday evening after a two weeks illness of peritonitis. The case is extremely sad in that she leaves a baby girl only two weeks of age. Mrs. Shodal, who was Miss Maleda Kjellquist, was well known to a large number of our citizens and was a great favorite and her loss will be severely felt. She was a daughter of Alderman and Mrs. P. J. Kjellquist. The funeral will be held Sunday afternoon at 2:30 from the First Methodist Episcopal church. The services will be conducted by Rev. Charles Fox Davis and will be followed by interment in Evergreen cemetery. Mrs. Shodal was born Dec. 4, 1886, and was a little over 23 years of age at the time of her death. She was married about a year ago to Mr. Shodal, who is a popular clerk in the Northern Pacific shops.

The little one will be taken by his sister, Mrs. Robert Lester, of St. Paul, who with her husband are in the city. Mr. Lester having come up last night and Mrs. Lester some days previously. Mr. Shodal and his relatives are stopping for the present at the residence of H. A. Carmichael, on North Sixth street.

CROW WING COUNTY EXHIBIT

Photograph of Products and Representatives Taken at Conservation Congress

J. M. Elder has some large photos of the Crow Wing county exhibit and of a group of the representatives of the county at the recent conservation congress at St. Paul. They are taken in front of the county exhibit. The local men in the group are Prof. J. A. Wilson and Louis Knudsen, who had charge of the exhibit, J. M. Elder and Tom Welsh, of this city, and D. C. Henderson of Smiley and Alf. Lawrence, of Pequot. A gentleman from Sibley county, who is a heavy land owner in Crow Wing is with the group.

The closing of the season of the Ladies Musical club, has been postponed one week, and will be held Saturday afternoon, April 9th, 1910.

NEWSY NOTES

FROM DEERWOOD

Hustling Village is Making Improvements and Getting to the Front

CITIZENS COMING AND GOING

Interesting Items of Social and Business Life of the Growing Village

Deerwood, Minn., March 30.—The town was startled this morning by the discovery of part of the remains of a man lying along side the Northern Pacific railroad track about a quarter of a mile west of the depot. Coroner Gibson was summoned and found the remains scattered along the track all the way from Klondyke. The man proved to have been a railroad laborer who arrived at Klondyke Tuesday to work on the extra gang for the railroad company. How he came on the track in the way of the extra freight which struck him is not known. Olson Brothers took the remains to Brainerd this afternoon at the request of the coroner.

Mr. and Mrs. Henry Spalding were in Deerwood between trains this afternoon and evening and drove out to Crosby to look over the prospective town.

John Shallman, Jr., and his uncle, Louis Shallman, were up from Foreston, Minn., today on business.

Mr. and Mrs. Charles H. Adams returned this morning from their western trip. They visited Washington, Oregon and California and returned well satisfied with Minnesota. They came home by way of Iowa City, Iowa, and brought Miss Ruth home with them. They report Wm. Musser and family to be getting along nicely.

Serpent Lake opened up Saturday last, more than a month earlier than last year. This is said to be the earliest that the lake has opened within the memory of the oldest inhabitants.

The Cuyuna Laboratory Company has been turned over to A. C. Denis, the manager, who will handle it as a personal venture hereafter. Mr. Denis has been very successful in his work and will undoubtedly do well.

Clarence McDonald, of Aitkin, is assisting in the Cuyuna laboratory.

Fred Thomas has a couple of English setter pups that are beauties. He says that they have more friends in town than he has.

F. J. Thomas has his building in Cuyuna nearly ready for occupancy. Leon Thomas will have a barber shop

on the ground floor, while the second floor will be occupied as a residence.

Mrs. B. J. Annett, of Brainerd, is visiting her sister, Mrs. O. Bloomstrom this week.

Ed. Peters, manager of the W. W. Kimball Co., at Brainerd, was in the city this afternoon on business.

Tom Bender went to Brainerd on the freight tonight on business.

George Christenson, a laborer on the bridge being constructed by the new Soo line east of Deerwood, fell from the bridge this morning and broke a rib. He also cut his chin and was badly bruised. He was brought to Mrs. Bartens' hospital and is getting along nicely.

Mrs. Adam Tolman, of Crow Wing, who gave birth to a young son in Mrs. Bartens' hospital last week, is getting along nicely and expects to return home next week.

A gentleman named Bjork, has opened a new blacksmith shop just west of F. L. Pitt's real estate office.

Mrs. Wilhelmina Bartens has leased her hospital to a physician from Minneapolis, who will take possession May 1st.

Franklin W. Merritt is expected up from Minneapolis tonight to look after the placing of drills on Joe Raymond's farm near this village.

YOU CAN CURE THAT BACKACHE

Pain along the back, dizziness, headache and general languor. Get a package of Mother Gray's **Australian-Leaf**, the pleasant root and herb cure for all kidney, bladder and urinary troubles. When you feel all run down, tired, weak and without energy, use this remarkable combination of nature's herbs and roots. As a regulator it has no equal. Horses For Sale

Car load of broken and unbroken mares and horses, for sale this week at the N. P. stock yards. E. Hylander. 254tf

WOULD BAR DOGS ALSO

East Brainerd Lady Would Have Ordinance Passed Restraining the Canines

The Dispatch is in receipt of the following communication from a lady who resides in East Brainerd:

March 30, 1910.

"Brainerd Dispatch.—Seeing in your papers that an ordinance is being drawn up to prevent chickens running, why not put in that same ordinance for everyone to keep their dogs from running over every garden, tearing up the flowers and everything else planted. In my experience I have had more loss in my garden by dogs than by chickens."

The communication is respectfully submitted to Alderman Cardle and also to the alderman from the third ward. The name of the writer can be had by them at the Dispatch office.

FAMILY BURIED BENEATH TREE

Four Persons Traveling Through Woods Near Tamarack Have Remarkable Experience

Aitkin, Minn., March 31.—A miraculous escape of four persons from death is reported from Tamarack, 33 miles east of here. Albert Jahr, a farmer living a few miles from Tamarack, with his wife and baby and a sister, were riding through the woods on Sunday morning during the prevalence of the high wind, which raged all day, when coming to a bend in the road, a good sized balsam tree fell lengthwise on the wagon, and stopped the team instantly. There was no box on the wagon, and the people were riding on a plank. The tree split the plank and pinned the whole party down. Jahr finally wriggled himself loose and tried to remove the tree, but was unable to do so, but he managed to get one of the wheels off, letting the wagon down, and the ladies and the baby were in this way released. The baby was unconscious for three hours afterwards, Miss Jahr had her collar bone broken, and Mr. and Mrs. Jahr were severely bruised, but none of them were seriously injured and are congratulating themselves that it was no worse.

HELD TO GRAND JURY

Nick Sore in Jail Held to Answer to the Charge of Grand Larceny

Nick Sore was brought down from the town of Allen last night and committed to jail in default of \$500 bail to await the action of the grand jury on a charge of grand larceny. Sore broke into several houses and burned a shack up there. It is the opinion of the officers that he is rather a fit subject for Fergus Falls instead of Stillwater as he seems to be simple minded if not actually crazy.

ADVERTISED LETTERS

Letters remaining unclaimed in the post office at Brainerd for the week ending April 1st, 1910. When calling for these letters please say "advertised."

Our Wash Fabrics

The wash fabrics are so different that you must possess a new dress if you want to have Fashion's approval. They are extremely pretty too; most of them contain silk which gives them lustrous finishes.

The mercerized fabrics, in heavier weights and in plain colorings will be the fabrics for the suits.

"MICHAEL'S"

Our New Silks

You have doubtless noted the place Fashion is giving to silks. Silk suits will be worn in quantities this summer and a more serviceable quality than usual is being shown. Our line represents a large line of colorings and all are priced at a very reasonable figure.

"MICHAEL'S"

McNAMARA & COMPANY

The complete line of furniture which we are now carrying will give you a good opportunity to get what you will be in need of. Our specialty of furnishing houses complete is one of the best. Come in and look our stock over.

A Woman in the Case

A woman was at the bottom of it all. She said to her husband, "Why don't you go to LINNEMANN'S and see what kind of clothes they have instead of paying such high prices to have them made?"

The man came doubting at every step and said he did not think we could fit him, but just wanted to look around for curiosity. We persuaded him to try on a coat and of course, easily convinced him that his ideas of ready-made clothes were all wrong.

There are not only different sizes, but different cuts—for the stout man, the slender man, the tall man, the short man, so it is now the exception rather than the rule not to be fitted in our ready-to-wear clothes.

Suits at 12.50, 15.00, 16.50, 18.00 to 27.00

The Horses of St. Mark.

The horses of St. Mark were taken from Chios in the fourth century by the Emperor Theodosius and placed in the great hippodrome at Constantinople, whence they were taken by the Venetians in the year 1204. Venice and Constantinople were bitter rivals in trade, and largely through Venetian intrigue and diplomacy the fourth crusade was turned from its original purpose into that of the capture and practical destruction of the splendid city on the Bosphorus, thus making it possible later on for the Turks to establish themselves on the continent of Europe. It was during the sack of the city by the crusaders that it was despoiled of its famous horses by the Venetians.—New York American.

Living Indelible Ink.

If the shell of the Purpura lapillus be broken there is seen on the back of the animal, just under the skin, a slender, wavy, vein which contains a yellow liquid. When this liquid is applied to the skin with a small brush and exposed to the sun it becomes successively green, blue and purple and finally settles into a brilliant unchangeable crimson. Housewives of New England have growing abundantly on the seaside rocks in their neighborhoods little living bottles of indelible ink not to be excelled in beauty or durability by any manufactured product, since neither acid nor alcohol will affect this juice of the whelk.—Youth's Companion.

No Alcohol!

Ask your doctor if a family medicine, like Ayer's Sarsaparilla, is not vastly better without alcohol than with it.

Is alcohol a tonic? No! Does it make the blood pure? No! Does it strengthen the nerves? No! Is Ayer's Sarsaparilla a tonic? Yes! Does it make the blood pure? Yes! Does it strengthen the nerves? Yes! Is it entirely free from alcohol? Yes!

GERMAN CUSTOMS LAW.

It May Not Always Be Expensive, but It Does Take Time.

"If you travel in Germany you want to be careful to declare all dutiable goods at the border, even down to a toothpick," said a former attaché. "It may not save you much money, but it will save you vexatious delays."

"With a friend I came over from St. Petersburg by way of Stockholm to Kiel on our way to Berlin. I had bought in Russia half a dozen gun metal holders for tea glasses, not worth over 15 cents apiece, and I had packed them in a Russian helmet. The latter had a spike on top of it.

"The customs officer at Kiel asked whether I had anything dutiable, and as the holders were of insignificant value I said 'No.'"

"That did not satisfy him. He thrust his hand down into the bag roughly, and the first thing he came into contact with was the spike of that helmet. He jumped back, with a German oath, and then he reached down more cautiously, grabbed the spike and pulled the helmet up, the contents dropping out.

"Ah! So!" he exclaimed in triumph, transfixing me with a look.

"Then he charged me with evading the law and with smuggling. He left us under guard, and there we stayed while we saw our train pull out. Finally the Herr Oberinspektor, in brilliant uniform and with sword clanking, came along back with him. He pompously inquired who we were. We explained.

"I believe you, gentlemen," he replied after some questioning and considerable deliberation, "but you are amenable to the law and will have to pay the duty and a fine equal to the amount of duty." Then he hurried away to get the articles appraised.

"We felt we had got into a mixup. We counted over the German money we had between us, and it amounted to less than \$3. We had nothing besides but drafts on Berlin, and if the duty and fine amounted to much we were in for all sorts of trouble.

"Finally the Herr Oberinspektor came back with a bundle of papers in his hands. He informed us that we could be liberated upon the payment of 60 pfennigs, which is about 15 cents. For this we had lost three hours."—New York Sun.

NO INDIGESTION OR STOMACH DISORDER

A Little Diapiesin Now Would Make You Feel Fine in Five Minutes

END YOUR STOMACH TROUBLE

Indigestion, Gas, Heartburn and Other Stomach Misery Goes Before You Realize it

Why not get some now—this moment, and forever rid yourself of Stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapiesin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapiesin costs only 50c for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all of your food the same as a sound, healthy stomach would do it.

When Diapiesin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is awaiting you as soon as you decide to take a little Diapiesin. Tell your druggist that you want Pape's Diapiesin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out-of-order and uncomfortable now you can get relief in five minutes.

HUNT FOR HUGE WOOD BISON.

How Harry V. Radford Killed America's Greatest Mammal.

FIRST SLAIN BY WHITE MAN.

The Creature Weighed Over Twenty-four Hundred Pounds and Was Almost Six Feet High—Its Skeleton, Hide and Head to Be Sent to a New York Museum.

That the wood bison is not a myth, but a gigantic reality, will be demonstrated beyond question early in May, when the skeleton, hide and horned head of the largest wild animal ever shot on the American continent is shipped from near Fort Smith, Northwest Territories, to be added to the collection in the Museum of Natural History at New York. Not only is it the greatest in bulk, but it is the first wood bison ever killed by a white man.

Harry V. Radford of New York, known a few years ago as "Adirondack Harry" because of his familiarity with the wilds of northern New York, was the successful hunter, and to prevent doubt being cast upon his claims he has made affidavit as to the circumstances, and this deposition, with the statements of his Indian guides and the five white men who assisted in skinning the creature, will be submitted to the American Bison Society, which is collecting all available data concerning the nearly extinct mammal. It was under its auspices that he undertook the search.

Nearly Six Feet High.

The weight of the bison shot by Radford was 2,402 pounds; length of head and body to root of tail, 9 feet 7 inches; height at shoulder, 5 feet 0 inches; girth behind forelegs, 9 feet 9 inches; circumference of neck, 6 feet; circumference of muzzle behind nostrils, 2 feet 5 inches.

Mr. Radford started on the expedition in February, 1909, with the express purpose of determining whether it was identical with the bison that used to roam the prairies in Yellowstone park, a thousand miles south, or whether it was a distinct subspecies.

Arrived at Edmonton, Alberta, Mr. Radford remained until June 1 to study the habits of the rare animal he was seeking. He had made up his mind to devote at least a year to the quest. He obtained a special permit from the Canadian government after he had convinced the officials that his hunt was solely for scientific purposes.

The hunter reached the timbered country about the Great Slave river late in June, and from then until he attained his object he was cut off from civilization. He descended the Mackenzie river to its delta within the arctic circle, mapping and exploring the country as he went. He made a long search through the valley of the river, questioning Indians and making personal observations.

The hunt continued without intermission from June to the last day of November without success. No game except that actually used for food was shot. From June, 1909, to January, 1910, Mr. Radford walked more than 1,200 miles.

Looked as Big as an Elephant.

On the morning of Dec. 1, when about fifty miles southwest of the small Hudson Bay post on Slave river, the hunter came across a trail that indicated the proximity of an animal of extraordinary size. He and his guides were on snowshoes. The thermometer was 17 degrees below zero, and as the day advanced the mercury fell still lower. The chase led over uneven hummocks and was most exhausting. The quarry itself began to show fatigue and enabled the party to get close.

Mr. Radford was amazed when he got a good view of the immense bulk. In the gathering gloom it looked as big as an elephant. Carefully stealing to leeward, he got to a clearing where the view was unobstructed. He waited until he was within sixty yards before he sighted his rifle and fired. The bull turned as if to charge and then lumbered off toward a dip in the snow. Mr. Radford fired again and then a third and a fourth time with his steel lined shells. Each bullet took effect. The bison ran 150 yards and then lurched over dead.

The thermometer had been falling steadily, and it was necessary to make a very rapid inspection of the appearance of the mouth, nostrils, tongue and other soft parts, so that accurate notes could be made before they were stiffened by death. When the temperature reached 40 below zero Radford and his Indian helpers made for camp, six miles away, after covering the carcass with snow to keep it from freezing. By the light of the moon next morning at 3 o'clock the task of disemboweling and skinning the animal was resumed. This was done in a temperature of 37 degrees below and with the bare hands. Then the measurements and weights were recorded in the presence of five witnesses—all white men.

The largest buffalo ever measured by a naturalist was an old bull shot in 1886 on the Montana plains by William T. Hornaday. It was regarded as of abnormal weight, probably 2,100 pounds. This is 300 pounds less than the mammoth killed by Mr. Radford.

Easter Layout and Outlay.

Let's analyze an Easter bonnet To ascertain just what's upon it And reckon up the real cost When it's embellished and embossed.

One frame of wire all bent asked, \$2.50 Two yards of silk of rainbow hue, 2.00 Two plumes that like a fan expand, 4.00 A bunch of posies made by hand, .50 An oblong buckle, black and bright, .25 Three pins to hold the hat on tight, .75

The total cost to build that bonnet, \$8.00

But when it in the shop appears, With label "Made in Paris," here's The price the milliner puts on it: \$50.00 —T. B. Chrystal in New York World.

NEW INSURGENT MOVEMENT.

Pinchot Said to Be Identified With a Plan to Fight Privilege.

Insurgents and reformers from all parts of the United States have been called to a meeting which will be held in Washington early in April.

The purpose is to launch a nation wide movement against privilege. It is said that a coalition has been formed between Gifford Pinchot and the insurgents and that ex-President Roosevelt may figure in a larger and more definite "back from Elba" movement than any hitherto suggested. The former president has been kept informed.

A secondary conference is to be held in New York. This will have largely to do with finances.

These alleged facts came out at Denver the other day as the result of an exchange of communications between
